

## **OTF Grant Allows for Cochenour Arena to Increase Efficiencies and Extend Ice Season**

**October 1, 2022** – Through the Ontario Trillium Fund (OTF) Community Building Fund, the Municipality received a grant to replace a 27-year old condenser that was well beyond its useful life.

This much needed funding has allowed the Municipality to improve much needed efficiencies of the arena and extend the annual ice season, thereby maximizing participation rates.

“Our local Arena is a valuable recreation and sport facility in our Municipality. This funding will allow residents and visitors of all ages to continue to engage in these recreation and sport activities” stated Mayor Fred Mota.
